27 October 1965

MEMORANDUM FOR THE RECORD

SUBJECT: Removal of Classification of Maps Used in Map Folio on
India and Pakistan

1. The preparation of three copies of the Map Folio on India and Pakistan for the Vice President (1 copy), the DCI (1 copy), and a reserve copy required the inclusion of a number of maps classified Confidential and Secret to achieve the substantive coverage desired.

2. Existing maps were used for the folio. The cover of the folio was imprinted with the control, "For Official Use Only". Maps bearing the classification of Secret and Confidential were trimmed so as to remove the classification, or the classification was scraped off when it appeared within the legend box or elsewhere on the body of the map.

3. It was felt by the DDI, the D/OBI, and [REDACTED] that removal of the classifications from the maps did not compromise intelligence information, methods, or sources in view of their intended limited use in a folio bearing the control, "For Official Use Only".

4. Attached is a listing of the maps used in the folio.

JAMES A. BRANDELL
(signed)

JAMES A. BRANDELL
Director of Basic Intelligence
